## REQUIRES CHANGE AND REB SAN SALVADOR'S NAME LOST

Average Woman Unable to Do Heavy  
Among Surroundings That Have  
Become Monotonous.

A certain woman was restless. She  
was worn out, but it was not with  
physical work. Her husband was  
wiser, perhaps, than most husbands.  
He did not send her to the top of a  
mountain where she was the only in-  
habitant. He sent her to a quiet place  
where there were many new people, with  
new possibilities and new tastes of  
food. She needed a change, and she  
found it. She was not a woman who  
did not appreciate the culture of her  
own. Sometimes when a man sends  
a wife to get away from a monotonous  
life, he is needed by his wife. Frequently  
even if she has enough feminine so-  
ciety she lacks the society of men.  
Perhaps her husband never really  
converses, or is able to converse, with  
her. A man hidden behind his news-  
paper at the breakfast table is not a  
creation of the comic paper. It is a  
too frequent fact. Too often a wife  
does not interest him because of the  
sphere which is imposed upon her  
too limited. Yet she may have  
no confined to her own thoughts  
day that she feels she will go crazy.  
If she does not have some one to talk  
sincerely with, or some other human  
excitement. Birds often divide the  
care of the young, and when the fe-  
male leaves the nest it is sometimes  
merely for change and rest. There  
are some who believe the French  
woman is more content than the av-  
erage woman in other countries be-  
cause she has a share in the family  
business. She is a partner, instead of  
a sort of upper servant.—Editorial in  
Collier's.

### Painless Dentistry.

In the Sunday school teacher's ex-  
perience the only kind of a dentist  
she had ever known was a man who  
pulled or repaired teeth, so when the  
nice little girl in her class said her  
father was a dentist the teacher con-  
cluded to patronize him. She knew his  
address and called one day with  
nerves braced for treatment of an un-  
sound tooth. She was shown into a  
small workshop, whose sides were  
lined with big grandfather clocks.  
"Dentist?" the man exclaimed.  
"Great Scott, no; I'm a clock mender,  
but I know how the kid came to make  
the mistake. People in this trade al-  
ways call the fellow who makes a spe-  
cialty of tinkering with grandfather  
clocks a dentist. The wheels of most  
grandfather clocks of American man-  
ufacture are made of wood, and when  
the clock stops the wornout teeth  
have to be removed from the wheel  
and sound teeth put in. So I really  
do work with teeth and deserve the  
name of dentist."

Always Somewhere Near.  
Misery never had to look far for the  
company that it loves.

Identity of Island on Which Colum-  
bus First Landed is No Longer  
Certain.

San Salvador is perhaps the most  
interesting historical point on the  
American side of the world, as it is  
the island upon which Columbus first  
landed. Yet it has lost its name. In  
view of the history not only of the  
Bahamas group, but of the American  
continent as well, it is far from sur-  
prising that the identity of the is-  
land where Columbus first landed has  
been a matter of dispute for many  
years. The name of the island, which  
Columbus first landed on, was San  
Salvador. In the Columbus Journal, to the effect  
from San Salvador to the Bahamas, dis-  
cussing clearly that Watling's Island  
alone met all requirements of the  
case.

### To Brighten the Eyes.

Bright eyes are among the most  
radiant of beauty's jewels, since they  
give animation and light to the entire  
face. A dull eye means a heavy,  
drooping expression, a condition to be  
avoided by the employment of ex-  
treme measures on the part of the  
girl who would attract.

A harmless and generally satisfac-  
tory way to bring brightness to the  
eyes is to bathe them with a solution  
of boracic acid and tepid water. Put  
in a basin full of tepid water as much  
boracic acid as can be placed on a  
dime. When it has entirely dissolved  
bathe the eyes gently. Do not be  
afraid to allow the water to get into  
the eye, as it will remove all inflam-  
mation and tend to make this im-  
portant beauty feature clear and bril-  
liant, at the same time giving a rest-  
ful and strengthening effect.

### Impervious to Hard Knocks.

All stories about the hardness of  
negroes' skulls were put into the back-  
ground by two happenings which oc-  
curred the other day. Following a  
quarrel, a negro, Henry Lewis, was  
shot four times in the head at a range  
of less than five feet. After penetrat-  
ing the flesh the bullets flattened and  
dropped to the floor. The man was  
taken to hospital, but was soon per-  
mitted to go to his home. His as-  
saultant escaped. Another colored man,  
William Puffen, while harnessing a  
mule, was kicked on the head and  
knocked down. Getting to his feet, he  
discovered the mule lying on the  
ground. Examination showed that its  
leg was broken. Puffen was taken to  
the Germantown hospital, where six  
stitches were put in his scalp.—Phila-  
delphia Ledger.

### Special Privilege.

"Isn't it against the law to be loud  
and boisterous in the street?" "It  
is," replied Mr. Chuggins, "unless you  
do so with a mechanical screecher at-  
tached to a motor car."
